Media Release Missing Juvenile August 24, 2010

This department is investigating a missing person report that originated in unincorporated Wonder Lake. On August 24, 2010 the parents of 14 year old Raine Nolan contacted the McHenry County Sheriff's Office to file a missing person report. They advised that they were contacted at the conclusion of the school day by school officials at Woodstock North High School who informed them that their daughter never attended school today. Raine was last seen at home at approximately 7:15 A.M. when it was presumed that she was leaving for school.

Information has been developed that Raine may have boarded a Metra train in the Crystal Lake area, possibly in route to the Chicago area. Members of the McHenry County Sheriff's Office are currently working with members of the railroad police in an effort to determine if she in fact boarded a train. Friends and family have been interviewed and no explanation can be given for Raine's absence from home.

Raine left items at her residence that she normally has with her such as her cellular telephone. She suffers from a medical condition that requires her to take medication which she is believed to be without.

Raine is described as an intelligent 14 year old girl, 5'00" tall, 110 lbs, having gray colored eyes and brown hair. Raine currently has long bangs and spiked hair with a green streak in the back. She also has green and black braces.

Raine was last seen wearing blue jean Capri pants, a black "Hurley" brand t-shirt, black Nike gym shoes, and a black necklace with a wolf pendant.

Sheriff Keith Nygren requests that anyone with information regarding this investigation contact either The McHenry County Sheriff's Office (815) 338-2144 or McHenry County Crime Stoppers at (800) 726-STOP (7867), or the tip line email address; TipLine@co.mchenry.il.us.
